REPORT NO.

CD NO.

DATE DISTR. 13 February 1953

NO. OF PAGES 1

NO. OF ENCLS.
(LISTED BELOW)

SUPPLEMENT TO
REPORT NO.

THIS IS UNEVALUATED INFORMATION

1. One complete set of spare parts is delivered with each Stormovik aircraft produced by the Avia airplane factory near Prague.¹
2. Competent Avia employees believed that the workers' pledge of 500 completed planes by Christmas could only be half fulfilled because special tools and screws were in short supply. Vidium drills imported exclusively from Sweden were among the items which were lacking.
3. Steel parts and metal sheets are supplied to the Avia plant in Prague by the Poldina Hut plant of the United Steelworks National Corporation (SONP) in Kladno.
4. The Avia plant now maintains a special police department to investigate acts of sabotage and the like.
5. Weapons which are to be mounted in the planes are stored in a magazine located between the main assembly hall and the building in which mechanical brakes are made.

1. Comment: Now known as the J. Dimitrov Plant of Avia, National Corporation, Letnany near Prague.
